Tata Consultancy Services (TCS) - Annual Business Report

Executive Summary

TCS reported strong growth in its digital and cloud segments. The company continues to focus on expanding its Al-driven services, demonstrating resilience despite global economic uncertainties.

Financial Highlights

Revenue for FY2025 reached INR 2,30,000 Cr with a net profit margin of 25%. Strong demand in banking and healthcare sectors contributed significantly.

Future Outlook

TCS expects continued growth with large-scale digital transformation deals. However, rising wage costs and attrition remain challenges.
